

The Learning Lab at SBJA is delighted to introduce Reading Assistant

Reading Assistant is the only reading program that “listens” to students as they read out loud, intervenes when the student falters, and automatically scores students’ oral reading.

Shown to improve reading more than a 1/2 grade level in just 1 month!

What is Reading Assistant? The Reading Assistant software provides **individualized, online reading coaching** for every student. Reading Assistant helps students rapidly **strengthen vocabulary, fluency, and comprehension**, maximizing their ability to *read to learn*.

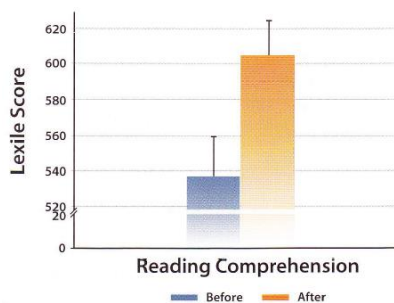

Students of diverse abilities and age levels can benefit, including English language learners, struggling readers, and even advanced readers who are reading at grade level.

Help When Students Need It: Reading Assistant is the only online reading software that “listens” to students as they read out loud, intervenes when the student needs help, and automatically scores students’ oral reading.

Increased Student Engagement: Reading Assistant has reading selections for a **variety of interests and reading levels** plus **frequent comprehension checks** that keep students motivated and focused on *reading for meaning*.

Easy-to-Use

Online access makes the program easy to implement for home use. Students can see their own progress and monitor their own improvement on their reading selections. Providers can use data to determine students’ areas of need regarding comprehension, fluency, etc.

One-Half Year Increases in Reading after a 1-Month Summer Program!

5th grade participants using Reading Assistant gained **68 points** in their lexile scores, *more than half the expected yearly gain of 100 to 120 points*

Grade Band K – 5:

- 91 Reading Selections
- 4,082 Glossary Words Defined
- Reading Grade Level K – 5
